SUMMARY

A motivated web developer with experience building responsive and dynamic web applications. Proficient in front-end and back-end development using technologies like HTML, CSS, JavaScript, React, and Node.js. Skilled in optimizing websites for performance and user experience, as well as managing databases. Eager to apply technical expertise and creativity to build efficient, user-friendly web solutions in a professional setting.

PROJECTS

CITU Streamlined Service Portal

- **Description:** Designed and developed a system where users can request various types of technicians, including janitors, electricians, and plumbers. Built with ReactJS for the front end, PostgreSQL for the database, and a back end using Spring Boot and ExpressJS.
- **Key Features:** User-friendly interface for service requests, Role-based access control for users and administrators, comprehensive reporting and analytics.
- **Link:** <https://github.com/Dumosse/streamlined-service-portal.git>

Portfolio Website

- **Description:** Created a personal portfolio website to showcase my projects and skills. Designed using HTML, CSS, and JavaScript to provide a visually appealing interface.
- **Key Features:** Responsive design for mobile and desktop users, Interactive project display with pagination, Downloadable CV and contact options.
- **Link:** <https://github.com/Dumosse/portfolio.git>
